

Θα φύγει ο ιός και θα μας μείνει η κορόνα vol. 2

The more oppressed the people, the more capitalism and states employ their propaganda mechanism, in order to make them disappear at no political cost..

Just like the employees and the poor, immigrants too, receive the most brutal impact in the midst of a pandemic. With the state war against them at its height the last months - a war the Greek state declared against immigrants years ago -, the Greek state has hastened the closure of accommodation centers in Leros and Kos (so far), repeating the practice of closed detention centers, that it has been long since preparing. Given the state's intention to create more closed detention centers and centers such as Moria already being the hell of modern **concentration camps**, it is proven, without a doubt, that **they aren't only a Nazis' and Fascism's practice, but of the bourgeois democracy of the "civilized West", too.**

The accommodation centers' closure announced on the pretext of the risk of CoVid-19's spreading, as well as the crowding that applies in all other detention centers, finds the immigrants literally exposed from everywhere. The state, as the defender of capital and bosses, makes sure that, the people who it has already thrown in misery, are locked and stacked one on top of the other in the midst of a pandemic. The bureaucracy show of the government protection "measures" for Reception and Identification Centers (known as KIT), collapses automatically by the number of people inside them and is reduced to one; the state and "reputable citizens" treat immigrants as infection outbreaks and what is reserved for them in the event of an occurrence of a case (inside a KYT), is total isolation and thus decimation. **Already, like the voice in the wilderness, 1200 immigrants in the KIT of Corinthos tried, by starting a hunger strike, to win the decongestion of the center and the exercise of the asylum right, which the government has ceased for a month.**

There are no refugees and immigrants. Power brings forth uprooting, let's uproot power instead.

We live on a planet that is pounded end-to-end by poverty while there is an abundance of material goods, plunder of nature, patriarchy, wars. As for the wars, we live in a period of intense competition between conflicting bourgeois classes in many lengths and widths of the planet. " When the buffaloes squabble, the frogs pay for it", says a proverb. A large part of the oppressed, also, endorses the narrative of the nation state and supports its bosses to dominate the bosses of others. Apparently such a type of person is prepared to fight the oppressed rather than their oppressors. The endless war operations, of the western states in particular, but also of the states of the East, have been kneeling and uprooting entire populations for years now. Either it is about the Israeli occupation of Palestine, or the exclusion that Saudi Arabia has imposed on Yemen, as starvation keeps decimating the people, or the multiple invasion of the Turkish state in northern Syria in an effort to expand and commit genocide of the Kurds, or for the people of Afghanistan, who stand for decades between the US-Taliban conflict that was generated by local fundamentalism but also by the expansionism and training of Islamist fundamentalists fighters from the US itself, the US-British-Syrian intervention in Syria 2018, the depredation of the African countries and the list goes on.. The leading European countries - members of NATO, are among others, the

supporters and perpetrators of this bloodshed and have also relinquished responsibility for receiving immigrants from the East and Africa with the Dublin Treaty. West treats, West drinks that is. This treaty and the crimes - as a member of NATO - are also signed by the Greek state, which also participates in operations. We do not forget the immediate involvement in the intervention in Syria in 2018, with the deployment of refueling spy aircrafts from Suda's NATO base, in support of US-British-French intervention. We do not forget the recent deployment of patriot missiles to strengthen the defense of Saudi Arabia, which has plunged the Yemeni people into misery and hunger. We do not forget the renewal of <<the agreement on the US bases in Greece>>, bases of US military operations in the East. We do not forget the cooperation with the Israel-Egypt-Cyprus axis, with which the Greek state legitimizes Israeli occupation / apartheid against the Palestinian people.

AUTH's involvement in the war machine and in the anti-immigration war

We note here, that as students, we do not forget that AUTH, with the construction of a drone, by the research team led by professor Iacynthos, and their agreement with the Army-Ministry of Defense, contributes to the war against oppressed people at the border. From our point, we say that AUTH will not become a fiefdom in the appetites of institutions and people who kill and torture destitute, underprivileged and poor people. The state's repressive mechanisms, as well as companies, which the state is trying to further engage in the university with the law for evaluation of educational institutions, have no place in the university. And the students have no benefit from serving the interests of the state and the capital. Instead, they have every reason in the world to oppose those who view our university and our lives as a source of profit.

The 'victimized' state in the role of perpetrator

Therefore, the Greek state is now facing the immigration, in the creation of which it is actively involved, with a full-fledged war on the Evros' border, with the outrageous use of migrants as pawns by the fascist Turkish state being the perfect excuse for domestic consumption to Greek society. The Greek authorities, with cops, army, soldiers, Frontex eurocops, armed fascists, hunting clubs, army worshipers and all kinds of paramilitary trash, commit abductions, tortures / beatings, violent and even illegal, according to their laws, deportations against migrants. The Greek authorities have given the authority to cops to use clubs and shoot intimidatingly against migrants, but also to soldiers to use violence and shoot without bullets. **And if all this goes beyond logic, the fact that " unknowns " keep a secret building where they torture migrants and then deport them in Turkey, and the two (at least) confirmed killings - of Mohammed al-Arab and Muhammad Gulzar - of immigrants from the Greek authorities and " unknown " victims, respectively are added to the crimes of the Greek state-and-paramilitary side.** Naturally, the government mechanism, by imposing a monopoly on the media, denies the facts while turning a blind eye to the fascist "Rambos" as its integral right hand. The orgy of state and paramilitary violence is also depicted in its raw form in the recording of the coast guard launching real fire near an inflatable migrant boat.

The wild and provocative state treatment of immigrants, by both left and right governments, has underestimated the value of their lives to the point where it is normal for immigrants to

be burnt alive, for children to get killed while playing (Lesvos), for babies to drown near Kos (Ailan), before they even touch their feet to land. The " culture " is decaying and stoops to its true form, breaking the bubble and the excuses of those who "did not see" and "did not hear", in the news of a child who was burnt alive in Moria of martyrdom a few days ago. **For these, and for all the reasons in the world, we demand the emptying of all concentration camps, closed and open, the decongestion of the islands and the transportation of all immigrants to safe houses inland. Papers to all immigrants, let's live and fight together.**

In the crisis that they reserve for us, let it find us in the trenches of social and class war and not under the state and bosses' boot

Responsible for the killings at the border are state and paramilitary trash and those who are working with them

Immigrants are our brothers and sisters, not to be left alone in the hands of the state

We show our active solidarity every way

Burn the detention centers

Papers to everyone
